

## Finding the Sheffield Bioincubator

Sheffield is the principal city of the centrally located English county of South Yorkshire. The Sheffield Bioincubator occupies a prime location on the western edge of the city centre affording easy access to the Britain's main North/South roads (M1 and A1), the city's railway station and a number of airports.

### By Road

Although easily reached by road, we recommend that visitors use the Supertram Park & Ride to reach the Bioincubator. Park & Ride sites are located at Nunnery Square (off the A57 Sheffield Parkway) and at Meadowhall Interchange (M1 Junction 34).

From the Park & Ride take the Supertram (yellow line, destination Hillsborough) to the University of Sheffield tram stop. After alighting from the tram, cross Upper Hanover towards the Henderson's Relish building, turn left and walk towards the University Roundabout. Turn right onto Broad Lane and the Bioincubator is the first building on the right.

If taking the tram from the city centre the yellow line or blue line trams travel to the University of Sheffield tram stop. Purple line trams only travel as far as the Cathedral and then return to Meadowhall.

### Travelling South on the M1

Leave the motorway at Junction 34, take the 4th exit on the roundabout and follow the signs for Sheffield and the city centre. Just before reaching the city centre (Whicker Arches) take the A61 (N) and follow the signs for Barnsley and Sheffield University. Stay in the left-hand lane and turn left up Netherthorpe Road towards the University Roundabout.

The nearest public car park is next to North Campus on Broad Lane. At the University Roundabout turn left down Broad Lane and the car park is after Siddall Street.

Leaving the car park, turn right up Broad Lane crossing opposite St George's Church. Continue up Broad Lane and the Bioincubator is on your left just before the University Roundabout.

### Travelling North on the M1

Leave the motorway at Junction 33, and turn left onto the A57 (Sheffield Parkway). At the end of the Parkway take the A61 (S) towards Chesterfield & Bakewell. Pass the railway station on your left and continue on the A61 onto the Inner Ring Road, continuing to follow signs for Bramall Lane & Bakewell. Stay in the left-hand lane and continue onto St Mary's Road. At the roundabout (St Mary's Church on the left) go straight ahead onto St Mary's Gate, straight ahead at the next roundabout onto Hanover Way and continue on this dual carriageway until you reach the University Roundabout (Information Commons on your left). Take the 4th exit on the roundabout onto Broad Lane and follow the directions to North Campus car park as for visitors travelling south.

### By Rail

Taxis are available outside the railway station and will drop visitors on Leavygreave Road. Entrance to the Bioincubator can be found by walking across the forecourt between the new School of Music on your right (a restored Victorian building) and the new Jessop West building on your left (a multi-coloured glass building).

Alternatively, visitors can take the tram from the rear of the railway station (blue line, destination Malin Bridge) to the University of Sheffield tram stop. Directions from there are as stated for the yellow line tram at the beginning of this page. Useful numbers: National Rail Enquiries +44 (0) 845 748 4950 & [www.thetrainline.com](http://www.thetrainline.com)

### By Tram from the Station

Blue route trams run from Sheffield railway station (destination 'Malin Bridge') every 10 minutes between 6am and midnight. The University of Sheffield tram stop is within sight of the Bioincubator. The Yellow route also links the Bioincubator with the city centre.

## Finding Regent's Court Car Park

### By road

#### Travelling South on the M1

Follow the directions to the Bioincubator until you turn onto Leavygreave Road.

Take the next right onto Gell Street and at the end turn left onto Glossop Road. At the second set of lights (just before Boots on the left) turn left onto Regent Street and then first right onto Pitt Street.

Regent's Court is on your left.

Leaving the car park, turn right onto Regent Street and at the top turn left by the Innovation Centre onto Leavygreave Road.

Go straight ahead back towards the Henderson's Relish building and the entrance to the Bioincubator can be found on the opposite side of Leavygreave Road between the School of Music (a restored Victorian building) and the new Jessop West (multi-coloured) building.

#### Travelling North on the M1

Follow the directions to the Bioincubator until you reach the roundabout before Hanover Way. At the roundabout turn right onto the A625 and at the next set of traffic lights turn left onto Fitzwilliam Street. As you approach the top of Fitzwilliam Street (opposite West One precinct) move into the right-hand lane. Turn left onto West Street and then take the right filter at the first set of lights (Boots on the right).

Turn right onto Regent Street and then follow the directions for travellers going South on the M1.

If you need to collect a parking permit and swipe card from Bioincubator reception, please drive onto the forecourt from Leavygreave Road, between the Jessop West building and the Music School.

When leaving the forecourt for Regent's Street car park drive straight ahead across Leavygreave Road onto Gell Street and then follow the directions for travellers going South on the M1.

### By Bus

Frequent buses (51 & 52) link the Bioincubator to the city centre.

### By Air

Robin Hood (Doncaster/Sheffield) Airport. Daily flights from Robin Hood (Doncaster/Sheffield) Airport.

Other airports within 60 minutes of Sheffield include: Manchester International Airport, East Midlands Airport & Leeds-Bradford Airport.
